

Found in the most remote location at Namibia's Skeleton Coast, Pelican Point Lodge truly is a destination on its own. The former harbour control building was elegantly transformed into a boutique hotel, a lodge comprising 10 contemporary and individually decorated Suites, including the unique Captain's Cove, a spacious Penthouse Suite that offers 360 degree views of the Pelican Point Peninsula. A stay at Pelican Point Lodge can be as relaxing and soul-enriching as one likes or be an active and adventurous holiday – and often a bit of both. A myriad of activities are on offer, giving guests the opportunity to experience closeness to nature, the exclusive remoteness of Pelican Point Lodge and various activities reaching across the Pelican Point Peninsula and beyond.
